

## Acid Sour Tired Painful Starved Craving Enlarged and Nervous Stomachs Are All Caused by Indigestion

This exposes the nerves of the stomach, and causes the glands to secrete a poisonous solution instead of the natural juices of digestion. All of the supplies of the body are absorbed into the blood through the glands along the digestive tract. We do not require to be told how important it is that these glands should be kept pure and clean and sweet and healthy. We do not need to be told that if this is not done, the blood becomes so impoverished that it not only fails to supply the various organs of the body with the nourishment necessary to keep them strong and healthy, nor that it deposits the poison it receives from decaying food in the various organs, and instead of their receiving strength from the blood, they receive disease.

The nervous system is usually the first to show the evil influences of such a condition. It causes unsound sleep, and rest that is not refreshing. We get up in the morning feeling tired, languid and our temper is uncertain. We lose that natural cheerfulness so much appreciated by our friends when we meet them. We have a headache or aches in other parts of the body.

What else can be expected when the nerve cells are continually feeding on tainted blood. The brain, heart, lungs and all the lesser organs of the body look to the stomach and depend upon the stomach, not only for food and strength, but for health and life. The kidneys are given double duty to perform by reason of the extra amount of impurities which they must filter out of the blood, and like the other organs they too are damaged and impaired for want of proper nourishment. Impurities which should be filtered out of the system by the action of the kidneys are retained in the blood, redoubling the amount of poison it receives from poor digestion, thus increasing the poisonous deposits made by the blood in the tissues of the various organs in the course of its circulation, back and forth through the body.

## Kodol Cures Indigestion

### ARRESTED FOR MURDER.

Examination of the Body Revealed Poison in the Stomach.  
Lawton, O. T., April 6.—Mrs. Throckmorton and her two sons and one daughter, from near Sterling, in this county, have been arrested for the murder of her husband. The deceased was near 60, had been in the asylum for some time, and very soon after being brought back suddenly died. It excited talk among the neighbors, the coroner was sent for, but arrived after the burial and returned without examination. As the talk continued the coroner examined the body and took it to Norman, where an examination revealed poison in the stomach. The daughter was released on a \$500 bond, as it appeared that she was not at home at the time of the death.

### ANNUAL INSPECTION ON.

Men Were Attired in New Khaki Uniforms.  
Guthrie, O. T., April 6.—The annual inspection of Company A, Oklahoma National Guard, took place Monday night. Captain F. L. Donaldson, Jr., of the 32nd cavalry, stationed at Fort Sill, inspected the company. The men were attired in the khaki uniforms recently received from the war department and presented a splendid appearance while on the streets.

### SESSION WAS TAME.

Democratic Convention at Lawton Completes Its Work.  
Lawton, O. T., April 6.—The Democratic county convention just finished had a much tamer session than was anticipated. In view of the bitter fight that has been going on since the call was made for an early convention. The county officials desired to make their calling card by getting the spout over as soon as possible. To complicate matters more, a grand jury, most of whom were Democrats, made a report so harshly criticizing the county clerk and two of the county commissioners that Judge Gillette required them to go back and modify it. Upon the amended report, he requested the county attorney to make an investigation.

## Blood Troubles

Bad blood is the source of numerous aches and pains and the cause of nearly all stubborn, long-continued diseases. When the blood gets out of order, disease germs and poisons of various kinds find their way into the circulation and some serious trouble is the result. Rheumatism, Malaria, Old Sores and Ulcers, Scrofula, Anemia, and many pustular or scaly skin eruptions, like Eczema, Salt Rheum and Tetters, have their beginning in bad blood, and only a remedy that enters into the circulation and destroys the germs and poisons, can have any permanent good effect upon a disease of this character.

You can't check a blood disease by any external treatment. The sores and eruptions that appear upon the surface of the body are only manifestations or symptoms of some internal disorder that cannot be reached from the outside. S. S. S. antiseptic the poisons, humors and acids that are the real cause of disease, cleanses and enriches the blood, and builds up at the same time the general health. S. S. S. invigorates all the organs and parts of the system to greater activity, and strong nerves and renewed health is the result. If you have any blood trouble, write us. No charge for medical advice.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

## ARE FIFTEEN CANDIDATES

Republicans Gather at Guthrie on Eve of Convention.

### SOME POINTS SETTLED

Contest for Delegates Will Be Interesting.

Guthrie, O. T., April 6.—From six to eight hundred Republicans are in the city tonight to attend the convention tomorrow in which six delegates and six alternates to the national convention will be selected, and a delegate to congress nominated. There are fifteen candidates for national delegates. Delegate B. S. McGuire has had no opposition for re-nomination, and no one has made the race against C. M. Cade of Shawnee for national committeeman to succeed William Grimes.

Shortly after the territorial offices were opened this morning a large delegation from Caddo, Comanche and a few of them from Kingfisher county called on Governor Ferguson. They were a jolly set of just such men as one would pick for representatives of a model community. After paying their respects to the governor, they called on Secretary Grimes and that liberal farmer sent down a box of cigars and pretty soon a volume of smoke was forced from the raised windows by the waves of social conversation. This party is mentioned as a representative part of the great delegations that will attend this convention.

Delegate Bird S. McGuire arrived here yesterday and established his headquarters at the New Royal hotel, where he is the center of the crowds of admiring friends. There is no questioning the fact that McGuire has grown in the estimation of the people of Oklahoma since he was elected to congress, and the remark is frequently heard among the delegates that McGuire has greatly improved since his election.

Bird S. McGuire is one of the few men who have served a term in congress and then returned for the endorsement of his constituency who has not a single mistake charged up against him. Nobody ever questioned his honesty and now his ability is a matter of unanimous concession. He won two years ago by a gallant fight of himself and friends, but this year he will be urged by an enthusiastic in the Republican army that will insure victory from the start.

The election of Cash M. Cade being conceded, as well as the re-nomination of Bird S. McGuire, the only issue will be the selection of delegates to the national convention. There are a number of candidates for this honor, and all being good men and true Republicans, this contest will be a good-natured one.

Tom Hartman, one of Deer Creek's prominent bankers, will doubtless prove a formidable candidate for delegate to the national convention. F. S. Westfall, of Lamont, was early on the ground in the interest of Hartman and if the Grant county delegation will give him a good backing Westfall will make work for somebody.

Homer Benedict of Hobart, in addition to having the delegates of Shawnee county behind him, is said to have the promise of the Washita county delegation, which will give him a good end-of in the race at the start. J. Everett Smith of Woodward is also considered a strong candidate and if, as now seems probable, the Woods county delegation enlisted behind his banner, he will stand a good show to be one of the winners, but there are rumors that Woods county is turning one ear to the seductive words of Tom Hartman of Grant.

C. W. F. Sawyer is the only colored man in the race for delegate to the national convention and the same is true of Lincoln county. He is instructed for him. The boys say that Sawyer is an Irish-negro, because he has red hair, but for all that the Lincoln county delegation say they will land him for one of the delegates. Sawyer is said to be one of the brightest negroes in the territory, and the Republicans down in Lincoln county say that he has always advised his people not to run against the prejudice of the white race by pushing themselves to the front for office. The Republicans of Lincoln have taken this opportunity to show their appreciation of him and are honest in their support of their candidate.

Among the other candidates already on the ground are John H. Cotterell of Guthrie, Colonel Jones of Oklahoma City, Dr. Phillips of Pawnee, W. C. Teterick of Blackwell and Bob Lowrey, the tough rider, from Stillwater. William D. Fassett of Kingfisher is also in the race to win, and then Dr. Jackson of Canadian county seems also to have a strong following and delegates are already on the ground urging the selection of Colonel Dunn of Comanche county as one of the delegates. It is everybody's race as yet, but doubtless combinations will be made tonight so that the delegation to Chicago will be practically settled before the convention meets.

Republicans who take most interest in the coming campaign are thinking about the chairman of the territorial Republican central committee to take the place of Cash M. Cade, who will be made national committeeman. There is a great deal of quiet discussion along this line among the leaders and the delegates already on the ground. It is impossible at this time to tell who will be selected to conduct the Republican battle, but sentiment seems to be crystallizing around Judge M. C. Garber of Enid and he will probably lead the hosts to victory.

M. C. Garber is probate judge of Garfield county. The fact that his friends call him M. C. is equivalent to saying that he is a good mixer, and his ability as an organizer is conceded. Whoever gets the position will not have a difficult position to fill, for the reason that the Republican party in Oklahoma is united and there are no factions to conciliate. There are all for McGuire and want him re-elected. Nearly all the prominent men of the city are out to welcome the delegates and it is this that makes Guthrie a favorite place for holding conventions. Governor Ferguson was in his office during regular hours, but most of the other officers in the territorial buildings were absent from their offices. Every political center has its hard workers for the party, and in Guthrie John Golobie of the State Register is the man who gets out and works for his party, and it does not make any difference to him whether the contest is for the election of a congressman or a member of the Guthrie city council, he takes the same interest.

Many people will doubtless wonder why

## MUNYON'S PAW-PAW JUST THE TONIC YOU NEED

It will cure Dyspepsia. It will cure Indigestion and all other forms of Stomach Trouble. It will cure Catarrh and Rheumatism As a Spring Medicine it has no equal.

## PURIFY THE BLOOD

And drive out Catarrh, Rheumatism and all other Blood Disorders by using

## MUNYON'S PAW-PAW All Druggists.

there should be any contest for the selection of delegates to the Republican national convention when it is understood before the convention meets that it will nominate Roosevelt. One prominent candidate for delegate answered this question by saying that all there was in it was to secure the endorsement of the Republican party of Oklahoma and this he considered honor enough for any loyal Republican to make the fight for delegate.

### WHERE IS WHITWELL?

Curious Case of a Harvard Student Who Is Missing.  
Oklahoma City, O. T., April 6.—Postmaster Brown is in receipt of a letter from Mrs. W. L. Whitwell of New York city, making inquiry about her son, William Bradley Whitwell, Jr., who disappeared from Harvard college two months ago. The letter is accompanied by a photograph of the young man. The letter stated that after his disappearance he had been heard of at Waco, Texas, but from there all trace of him has been lost. It also stated that advice had been received there to the effect that a young man resembling him had been seen in this city working for one of the railroads handling trucks.

The photograph was shown to railway officials here, but none of them knew any young man by that name. They stated that the photograph resembled some one they had seen here. In the letter was the following clipping from a New York newspaper: "Facts have been learned by the World which make it appear that William Bradley Whitwell, Jr., the Harvard football player, who disappeared February 26, last, visited his home at Waco, Texas, but from there all trace of him has been lost. It also stated that advice had been received there to the effect that a young man resembling him had been seen in this city working for one of the railroads handling trucks."

Whitwell had seen a great deal of the world for a man of 21 years. Born in California, where his parents lived until 1891, he came east six years ago to prepare for college. Since then he has not been home except for an occasional visit. These visits, however, had taken him across the continent a dozen times by different routes so that he was familiar with all parts of the United States. He had spent one summer in Idaho to study the mining business, with a view to entering it after his college course, but later he had determined to become a lawyer. A year and a half ago he interrupted his course at Harvard for several months and went to Munich, where he studied architecture and music. On his return he applied himself to his college work with double diligence.

### REPUBLICAN TICKET WINS.

Perry Elected All Republicans but One Tuesday.  
Perry, O. T., April 6.—The entire Republican city ticket was elected except one member of the school board in the First ward. Rev. G. B. Collins being elected. Assessor, C. S. Minor; councilmen, John Rather, J. H. Flood, G. M. Ellis and John Queen; members of school board, Rev. G. B. Collins, Democrat; E. M. Irwin, Independent; A. R. Paster, short term; G. W. Beale, L. H. Cobb. Three tickets were out—Republican, Democratic and Socialist.

## HORSE THIEVES NOW IN JAIL

Two Men Are Arrested With Stolen Horses.

### SHERIFF FIRED SHOT

That Persuaded the Young Man to Yield.

Chandler, O. T., April 6.—C. G. Armstrong and R. L. Cockran were arrested last evening by Sheriff Tighman, a couple of miles south of town, with two stolen horses in their possession, and are now in jail awaiting the arrival of the sheriff of Oklahoma county to take them back to stand trial there, the theft having been committed near Edmond.

Yesterday morning, as Robert Mathey, the milk man, was driving in with milk about daylight from his farm, two miles south of town, he met a boy with a sack of corn on his shoulder. Thinking that the boy was the son of a former neighbor named Armstrong, Mathey called out to him and asked what he was doing here, receiving an evasive reply.

Mathey related the circumstance to Sheriff Tighman, who in company with Frank Carpenter went out to the old Armstrong place to reconnoiter. Reaching a deep ravine on the farm, Tighman left his horse in charge of Carpenter, while he explored the ravine on foot. Cutting across a sharp bend he came upon two young men seated in a deep hollow eating lunch, while near them two horses were tied. The sheriff commanded the boys to throw up their hands. The smaller one complied, but the larger one, who proved to be young Armstrong, reached for his hip pocket. Tighman fired into the junk near the youth, who promptly concluded that he had better obey orders, and threw up his hands. They were placed under arrest and brought to town.

The horses answered the description of two which were stolen Sunday night from G. B. Kingdon and C. B. Blake at Edmond. Sheriff Tighman wired the Oklahoma county sheriff of the capture, and he is expected here today after the prisoners and horses.

Armstrong, the larger of the two boys, appears to be about 19 years old. After selling their farm here the Armstrongs family moved to the vicinity of Edmond, where they now live. The other boy, who gives his name as R. L. Cockran, is apparently a couple of years younger than Armstrong. He says he formerly lived near Higgins, Texas. The two boys have made a rapidist for the pen.

It is supposed that Armstrong came this way to avail himself of the well-known services on his father's old farm, expecting to move on last night to the Indian country, but he did not count upon the probability of being seen and recognized.

### GEOLOGICAL SOCIETY MEETS.

University People Enjoy a Pleasing Entertainment.  
Norman, O. T., April 6.—The University Geological society held a very interesting session here Monday afternoon. Several visitors were present and the program throughout was most entertaining.

The papers read were upon subjects relating to last summer's field work and embraced several different phases of geological conditions in Oklahoma. Mr. Larkin and Mr. Long discussed questions relative to spring and deep wells. Mr. Chas. T. Kirk read an interesting paper upon their views in Oklahoma, and gave particular attention to the South Canadian, which he traced from its source to where it empties into the Arkansas, while Mr. C. A. Reed talked about fossils, and Professor Gould gave a short discussion of some of the particular geological conditions that he encountered this summer. As a whole, the meeting was one of the best held for some time. The program was as follows:

1. The Object of the Trip; the Route Taken; Springs of the Region Traversed.—Mr. P. Larkin.  
2. Streams and Streamology; Plant Life.—Mr. C. T. Kirk.  
3. Geology of the Region Traversed.—Prof. C. N. Gould.  
4. Fossil Beds; How We Lived in Those Days; Camps, etc.—Mr. C. A. Reed.  
5. Deep Wells; Language of Inhabitants; Summary.—Mr. C. A. Long.

### Territorial Charters Granted.

Guthrie, O. T., April 6.—Territorial charters have been granted as follows:  
The Mutual Water, Gas, Oil and Mineral company, of Oklahoma and the Indian Territory, with headquarters at Guthrie and capital stock of \$50,000. The incorporators are O. P. Cooper, W. S. Spencer and J. C. Strang, all of Guthrie. The Carson Oil and Gas company, of Guthrie, with capital stock of \$5,000. The incorporators are Frank Hildman, L. N.

Beale and A. L. Cockran, of Guthrie; M. B. Baird, of Tulsa, I. T., and Usher Carson, of Red Fork, I. T.

Frontier Lodge, No. 6 Ancient Free and Accepted Masons of Stillwater. The incorporators are George P. Lihl, George J. Holter and Frank J. Wignoff.

The Ideal Oil, Gas and Manufacturing company of Deer Creek, O. T., and Cherokee, Kansas, with capital stock of \$50,000. The incorporators are F. J. Preston and J. G. Bresholt of Deer Creek and A. E. German of Cherokee, Kansas.

Governor Ferguson today issued natural commission to Joseph C. Orr of Ectorshka in Pottawatomie county, A. L. Farabee of Stroud in Lincoln county and Elmer Kinsley of Cantonment in Blaine county.

### SENATE CONFIRMS NOMINATION.

Washington, April 6.—The senate today confirmed the nomination of Homer Speech, United States attorney for the territory of Oklahoma.

## SHE REGAINED PERFECT HEALTH

[Mrs. Redding Had Suffered With Female Weakness and Nervousness. Pe-ru-na Cured Her.]

MRS. LIZZIE REDDING.

SPRINGTIME IS VERY DEPRESSING TO THOSE SUFFERING WITH PELVIC CATARRH. RID YOURSELF OF CATARRH BEFORE WARM WEATHER SETS IN.

Mrs. Lizzie Redding, 234 E. Clifton Place, St. Louis, Mo., writes: "I found, after trying many different medicines to restore me to health, that Peruna was the only thing which could be depended upon. I began taking it when I was in a decline, induced by female weakness and overwrought nerves. I began to feel stronger during the first week I took Peruna and my health improved daily until now I am in perfect health and enjoy life as I never did before."—Mrs. Lizzie Redding.

W E are in receipt of thousands of letters every spring from women who have suffered from some form of female weakness, but have been cured by Peruna. Many of them have given the doctors a thorough trial. They have taken medicines, submitted to examinations, undergone operations, and done everything the doctors wished them to do, at last concluded to give Peruna a trial. Their decision to use Peruna very frequently occurs in the spring. The reason for this is that springtime is very depressing to this class of sufferers. Women suffering from female difficulties will often get through the winter very well, but when spring lassitude is added to their other ailment, they break down and are obliged to do something to avert a fatal calamity.

It is safe to say that Peruna has cured more cases of this sort, and has relieved more people from the sufferings of spring prostration than all other remedies combined.

If you do not receive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of the Hartman Sanitarium, Columbus, Ohio.

Best held for some time. The program was as follows:

1. The Object of the Trip; the Route Taken; Springs of the Region Traversed.—Mr. P. Larkin.  
2. Streams and Streamology; Plant Life.—Mr. C. T. Kirk.  
3. Geology of the Region Traversed.—Prof. C. N. Gould.  
4. Fossil Beds; How We Lived in Those Days; Camps, etc.—Mr. C. A. Reed.  
5. Deep Wells; Language of Inhabitants; Summary.—Mr. C. A. Long.
